1. As a user, I want to be able to create an account, which allows me to interact with the Smartbrew system.
2. As a user, I want to be able to manage preconfigured beverages so I can order it without needing to modifying my beverage.
3. As a user, I want to login so that I can access my account
4. As a user, I want to be able to view beverage options, giving me an oversight of what I can order and see how much it costs.
5. As a user, I want to be able to inspect the nutrionial values of the beverages
6. As a user, I want to place an order so that I can receive my chosen beverage.
7. As a user, I want to pay for my order so that the order can be completed.

8. As a technician, I want to be able to enter the admin mode, allowing me to maintain the system.
9. As a technician, I want to be able to register waste disposal, allowing the machine to correctly know when it needs to send an alert to me.
10. As a technician, I want to be able to monitor the machine, allowing me to know when I need to maintain, making the machine fully functional at all times.
11. As a technician, I want to be able to register ingredients refill, allowing the machine to correctly know when it needs more ingredients and if it is capable to brew a drink.

12. As a user, I want to receive AI based beverage recommendations so that I can discover drinks that match my preferences.

13. As a user, I want to be able to receive a receipt for a completed order so that I have proof of purchase.

ID	Description	Inputs	Outputs	Precondition	PostCondition
1	Allows a consumer to create a personal account in the system.	User name and a personal pin code	An account	The user name isn't taken	A new account is created
2	Allows user to manage and customize beverages	A beverage	Saved beverage configuratio n	There's beverages to modify	A customised beverage
3	Allows the user to login an interract with the system	Username and pin	Access to the user's account	Account exists	User logged in
4	View different beverages	Beverage list	Ingredient information and	Beverage exist	Beverage being inspected

			possbility to order		
5	Inspect the nutrional values of the beverages	Inspected drink	Nutrional values	Drink has a nutrion list	Nutrion list of a drink
